

About EcoDuct Series

Is EcoDuct airtight and pressure resistant?

EcoDuct is the ONLY ductwork fabricated in the UK that has a Class D air leakage rating (DW144) at 2,500 Pa.

It is also pressure resistant at up to circa 7,500 Pa and is therefore suitable for all ductwork systems – low, medium and high pressure systems and specialised applications. Airtightness is a critical performance factor of HVAC ductwork and is vital in terms of energy savings and airflow performance.
