

# About EcoDuct Series

## Does using EcoDuct actually save space?

EcoDuct saves up to 30% as the space required to manually install a separate layer of insulation around the ductwork is eliminated – this allows ductwork to be installed flush to ceilings, walls and floors, as well as to other surfaces within confined enclosures. **Find out more at [www.ecoduct.co.uk](http://www.ecoduct.co.uk)**
